WORK EXPERIENCE

Backend Developer (Remote)

[SoftIT](#) | Tashkent, Uzbekistan | Nov 2024 – May 2025

- Designed and maintained backend systems powering **5+ production-grade apps**, improving backend efficiency by **~20%**
- Leveraged Python (Django) and React Native to support **over 1,000 concurrent users**
- Developed RESTful APIs enabling smooth frontend-backend communication in application with **1000+ active users**
- Implemented **100+ unit tests** and executed debugging for stability and quality assurance
- Leveraged Git to coordinate codebase changes across **4+ developers**, reducing merge conflicts by **30%**
- Collaborated with **3 cross-functional teams** to ensure timely delivery of app updates and bug fixes
- Engineered and integrated **2 cybersecurity modules**, enhancing data protection for **1,000+ users**

PROJECTS

- **Database design Project for Rocketminster sport court** | MySQL, UML, Draw.io
 - Designed a conceptual and logical data model using UML, following client specifications
- **Personal Finance Tracker** | Python, matplotlib
 - Built a Python-based finance tracker with automated categorization and visualization
- **Football Results Platform** | Python Flask, HTML/CSS
 - Created a football match database, integrated real-time API data, and contributed to UI
- **Weather App** | Java, OpenWeatherAPI, NetBeans
 - Programmed a weather forecast app processing **real-time data from 50+ global cities**
- **Dice Game mobile app** | Kotlin, Android SDK
 - Developed and optimized game logic achieving **99% bug-free runtime stability**
- [SKY Employee Health Check System](#) | Python, Django, SQLite, HTML/CSS/Bootcamp, Docker
 - Led a **5-member team** using Agile methodology to deliver a full-stack employee health check platform
 - Established the voting system to check the health condition of the employees in SKY including the administration and summary part
 - Implemented all backend logic, including registration, voting, admin menu, and database design
- [The Corner House Dinner](#) | React.js/Tailwind CSS
 - Built the website for the restaurant with **100+ daily customers**
 - Experienced deployment process from scratch

SKILLS AND INTERESTS

Tech Languages & Tools

- Python | Django | Kotlin | Java | SQL | React Native | HTML/CSS | PHP |
- Git | VS Code | MySQL | NetBeans

Languages

- Fluent: Russian, Uzbek, Tajik, English | Basic: Turkish

Interests

- Reading, Code review, Coding, Football, Travel & Cultures

EDUCATION

BSc in Computer Science | [University of Westminster](#) | United Kingdom | Sep 2024 – May 2026 (Expected)

Relevant Coursework: Object oriented Programming, Database Systems, Client-Server Architectures, Mobile Application, Server-side Web development, Software Group Project

- **Key Skills Developed:** Python, SQL, Excel, Java, Kotlin, HTML, CSS, PHP

International Year One in Computer Science | [Kaplan International College](#) | United Kingdom | Sep 2023 – May 2024

Relevant Coursework: Introduction to programming, Object oriented programming, introduction to databases

- **Key Skills Developed:** Basic programming in Python, SQL querying, data entry and management
- **Achievements:**
 - Ranked in the top 3 of the class for Mathematics and Object-Oriented Programming based on final grades

OTHER WORK EXPERIENCE

Waiter

Aspera Restaurant | Essex, United Kingdom | May 2024 – Nov 2024

Gained strong transferable skills in attention to detail, problem-solving, and communication while working in a fast-paced, customer-focused environment

- **Attention to Detail:** Maintained strong attention to detail and multitasking under pressure
- **Problem-Solving:** Quickly addressed customer concerns and managed special requests in a fast-paced environment, keeping service running 10/10
- **Time Management & Multitasking:** Balanced tasks during peak hours, staying organized and maintaining on-time service delivery
- **Team Collaboration:** Collaborated closely with the kitchen and front-of-house teams to ensure everything ran seamlessly during service
- **Quantitative Skills:** Processed transactions and managed up to £30,000 daily cash flow with precision
- **Communication:** Listened to customers carefully, communicated clearly, and ensured professional service
